

HOUSE ACTIVITY- PRIMARY (10.07.2017)

“FOIBLE TREAT”

Activity-Cleanliness-To reduce Litter

The purpose of this activity was to reduce litter and follow Zero waste management. Students of all the houses of classes 3rd,4th and 5th kept a record of litter collected by sweeper. Then, from the kept record it was estimated which section of each class had maximum litter. In this way, students learnt that we should reduce the litter and follow 3R'S Management to make our city Green and Clean.
