

HUMAN RIGHTS DAY

Human Rights Day is globally celebrated every year on the 10th of December. MAPS also celebrated the day earnestly taking pledge to protect and promote the human rights of an individual.

Students of class VI joined hands and raised concern on deprivation of human rights while class VII students drew beautiful cartoons with a powerful message on human rights. Class VIII children watched a short movie on human rights and compared the three most striking things within their groups. Children of class IX were sensitised through a video and wrote their family's hopes for our world on paper in the shape of a dove.
