

HOUSE ACTIVITY- PRIMARY (11.12.2017)

MAPS Primary Wing observed the Inter House Competition on Day 6 where the students of class 3 made the lunar calendar. The kids had already gathered information related to the phases of the moon and based on it made beautiful calendars of their own.

Class 4 students presented a paper slide show depicting a discovery. The activity enabled the kids to share the knowledge regarding various discoveries and got handsome experience about what, how, and when the discovery took place.

Also, the students of class 5 took part in Inter House Competition where they explored new planets and based on the gathered information prepared a fact file.

The house activities enabled the students to enrich their scientific knowledge and they participated enthusiastically.
