

COMMERCE WEEK REPORT 2021-22

Commerce week celebrations commenced on 5th August 2021, with an exciting event related to "Storytelling Activity" for class XII, through video presentations of 3-4 minutes with captions, dialogues and lip narrative/ voice over. Students exhibited their creativity and talent, depicting topics related to Marketing Management, Organizing Motivation, Directing, etc. The week culminated with the event on 6th August when intersection teams from class XI enthusiastically presented their craftsmanship in the form of "creative insights from reel world" related to following topics: History of trade & commerce, Advertising, stock market, Exports and imports, Insurance etc under the guidance of Commerce Department. The presentations were very engaging, informative and novel. Students were provided a reference link video for "story storytelling" as well as "bollywood video presentations". There was 100% participation of students from both XI & XII. All the presentations were combined in a Padlet to be displayed in class groups to be acknowledged by all students. The winners of best video presentation were selected by combining students voting and teachers' evaluation. Finally Students work was compiled in form of Montage along with the Results.
