

SAVE WATER

CLASS : Cam 1 to Cam 2

DATE -23.7.18

SAVE WATER AND TELL OTHERS TO DO SO

Save water Project was undertaken with the objectives of conserving water and how we could save water at home and at school. And to talk about how we use water today compare to how our grandparents used water. With this the activity to Conduct a home water audit, to monitor water used in home over 24 hours, followed by a poster making with the aim of how water savings could be made and device an action plan to save water in our school.

It was for the awareness on Save water and to learn water conservation for solving the problems of water scarcity in the future. Students were inquisitive about presentation and poster making. Students were able to understand and share the information that -All of us need to understand the importance of water and problems related to lack of water in the future. We should not waste and contaminate useful water in our life and promote water saving and conservation because water Covers 2/3 of the surface of the Earth but Only 0.002% is Drinkable.

Learning Outcomes:

- Appreciate the importance of saving water.
- Act to conserve water at home and at school.
- Communicate the importance of conserving water.
