

# GLOBAL FRIENDS

CLASS : Cam 1 to Cam 2

## BRING FRESH IDEAS TO THE CLASSROOM

*The fast communication and transportation have changed the face of the world. What once seemed to be impossible is now possible on the click of a button or within hours. Physical boundaries are losing their significance. People are becoming global citizens. It is very important that our students get the kind of education and exposure that enables them to make their presence felt in this global world. Cam-1 of Maharaja Agarsain a Cambridge school tied with grade -1 of Glenmont Elementary School to achieve this goal. The collaboration has proved to be magnificent and very fruitful. Our students have got the international exposure by communicating and sharing their school life Under the guidance of Mr Peter Rawitsch the students have been performing various academic and co-curricular activities and tie up with the students from New York to share and learn from their culture and books.*
