make
pronouns
the king**

Question 10 (10 points)
 The following table shows the number of people who attended the 2010 World Cup in South Africa. The data is presented in a 2x2 table. The rows represent the gender of the attendees, and the columns represent the number of attendees. The total number of attendees is 1,000,000.

	Male	Female	Total
Male	400,000	300,000	700,000
Female	300,000	300,000	600,000
Total	700,000	600,000	1,000,000

What is the probability that a randomly selected attendee is male?

0.4
 0.3
 0.2
 0.1

Question 11 (10 points)
 The following table shows the number of people who attended the 2010 World Cup in South Africa. The data is presented in a 2x2 table. The rows represent the gender of the attendees, and the columns represent the number of attendees. The total number of attendees is 1,000,000.

	Male	Female	Total
Male	400,000	300,000	700,000
Female	300,000	300,000	600,000
Total	700,000	600,000	1,000,000

What is the probability that a randomly selected attendee is female?

0.4
 0.3
 0.2
 0.1
