SSC PRESENTATION WEEK

“Let’s nurture the environment to have better future.”

A healthy ecosystem is very necessary for the protection of living beings. So , we all should understand the worth of our Mother Earth and keep it pollution free.

Pollution hurts the planet with increasingly, deadly effects on all life. The students of our Class- V presented the causes and effects of noise, soil, land and air pollution. They explained that how different pollution effects our lives.

If preventive measures are not taken then our future generation will have to face major repercussions.
