"Expressing yourself doesn't make you weak, it makes you real! "

The students of CAM9 of the Cambridge Wing of MAPS Ashok Vihar delivered a spell binding TED talk on 29 July 2022. They showcased their amazing oratory skills and made the audience aware about the importance of expressing themselves and being confident. It was overwhelming to see the students talk about the importance of self love and misleading beauty standards that cause stress amongst the youth today. It was indeed a very interesting and captivating talk. Kudos to our next-gen motivational speakers!
