

CULTURAL EXCHANGE PROGRAMME

Cultural exchange programmes not only propel students to understand the diversity of the country, but also make them learn how to co-exist and feel compassion for different communities around.

A cultural programme between MAPS, India and Vinschool, Vietnam was organised to strengthen the ties. Agarsainians of Classes 6-8 eagerly participated in a quiz on Christmas traditions in foreign countries which was organised by the partner school and the other school enjoyed the scavenger hunt organised by our school. Exchange of Xmas greeting cards was a perfect showcase of the culture, tradition, and language of both the countries. The programme gave students new experiences and will strengthen our friendship in the future.
