PRE-PRIMARY

23.12.2022

"On earth, there is no heaven but there are pieces of it."

To highlight the SDG goal 15- Life on land, the students of MAPS pre-primary got engrossed in some insightful activities like "Adopt a tree" and Poster making on 'Save Earth'. Our little munchkins adopted a tree and understood the importance of planting more and more trees. They also got an opportunity to showcase their creative and aesthetic skills by making beautiful posters on how we can save earth. It was a simple yet great way to make our agarsainians realise the significance of our mother earth and appreciate its beauty.
