

NATIONAL CHILDREN SCIENCE CONGRESS

Date: 30 Nov,22

Maharaja Agarsain Public School is proud to announce that the Science project by our two bright Agarsainians Etant Rustagi and Lakshay Khanna under the able guidance of Ms. Ruchi Sharma, has been selected for the National Children Science Congress 2022-23 (National Level) organised by NOSTC, DST and Govt. of India. They have proved their mettle by clearing the Zonal, District and State Level with flying colours. Our students pushed the envelope to make a place amongst the 8 selected teams out of the total 58. Our proud students will now represent Delhi at the National Level to be held at Science City, Ahmedabad, Gujarat. The whole MAPS Fraternity wishes them All The Very Best for the next level!
