

## TED TALK WITH VIETNAM

**"The most valuable resource that all teachers have is each other. Without collaboration our growth is limited to our own perspectives."**

**MAPS hosted yet another marvellous TED TALK session with Hong Bang Primary Secondary School Vietnam on 24-1-22.**

**Coming together is a beginning, keeping together is progress, working together is success.**

**In this session, we get to know more about Vietnamese festivals and new year celebration through the medium of PPT presentation by the students of Vietnam school followed by an interactive quiz. It was an honour for our class 5 students to share information about our country on the auspicious occasion of Republic day with Vietnamese. Our students showed each and every aspect of this special day with them and concluded the session with another quiz round. The mood was upbeat and students actively immersed in the passion of Republic day festival facts.**

**It is worth saying that collaborating together always caters to more and more knowledge of each other's culture. The interactive session came to an end by remarkable words by the school Principal Ms. Alka Sahani and preparatory coordinator, Ms. Neha Grover.**
