There is a dawn to dusk ,The odour vanishes with the musk.  
The night cannot hold the day, For hope comes alive with every ray.  
Today may be dim and low Soon you will shine and glow.  
The thunder inside has ignited the fire. Every second which takes you higher.  
When you put your heart and soul. You see how doubt and mystery unfold.  
The vision created the desire. The uniqueness in each you would admire.  
It's not only about compete and just be first in the row.  
Let's join hands, co-operate and grow.  
Come let's give every face a smile. Leave our ego, hatred for a while.  
Let us be the shoulder for them to cry.

Is it really that hard to try?  
So dream big , work hard and never give up.

**Synopsis of Teacher talk-**

Dreaming is one of the sweetest things ever, we always dream about things we love and hope. Each one of us have aims in life, like; travelling to a favorite place, meeting a famous person, moving to a different country, having children and so on. The truth of the matter is that reality is not always on our side. Even when trying to do our best in order to make our dreams come true, we sometimes don't manage to do it. The most important thing is to fight, this is the most apparent proof that we have tried our hardest to obtain what we long for.
