

## DAY-6 ACTIVITY CLASS-1

### TOPIC - MORALITY

DATE:- 29.12.17

Sensitizing children about various issues and about good touch bad touch, makes them emotionally strong and helps them to grow normally. It helps them handle "not so positive events" in life in a better way so that they do not impact their growth and personality.

In order to make the students aware about Good touch and Bad touch a video was shown to them. It was shown in the video that we all want our children to be safe and secure and want to give them the best. We want to protect them against all odds. Our children come in contact with many people every day and there are good and bad people around them.

So, it becomes our responsibility to sensitize them, equip them so that they are ready to face and handle any odd situation or person coming their way.

Children are very, very impressionable, hence we need to explain the child what a good touch feels like, and how to know when someone is touching in a 'good way'. A good touch is something that doesn't make a child feel uncomfortable and is healthy for a child,
