

VISIT TO INDIA GATE(23.08.16)

Every expedition made is an experience which leaves students pondering and implores them to think. The students of Montessori I and II went on an educational trip to India Gate on 23 August, 2016. They were really enthusiastic to see India's national epitaph India Gate and the lush green environment surrounding it. They learnt a couple of facts about India Gate which commemorates the names of about 70,000 Indian soldiers who laid their lives for the country, Amar Jawan Jyoti which burns day and night under the arch to remind our brave soldiers. Students were encouraged to be responsible citizens by keeping the national monument and surrounding area neat and clean. Drive pass to Rastrapati Bhawan was also organized.

The excursion provided an enlightening opportunity to students, enabling them to enhance their thinking skills and increase their knowledge. It was a remarkable and fun-filled experience for the kids as they came back with a smile on their faces.
