

# MAPS' GLOBAL CONNECTION WITH VIETNAM

Date: 30.11.2021

It was a matter of immense pleasure for students of MAPS from grade 7th and 8th to be a part of a journey that helped them exchange cultures, traditions, ideas and knowledge with learners in Vietnam. The collaboration displayed inquisitiveness and core skills of the students. The session gave them a platform to create memories and to enhance knowledge. MAPS is looking forward to making sincere efforts to build many more such relations with students across the globe.
