

NAME OF THE ACTIVITY - FIGURE AVEC EQUATIONS

CLASS - X

DATE OF THE ACTIVITY: JUNE 21, 2021

BRIEF SUMMARY OF THE ACTIVITY:

In the Activity the students were supposed to draw **Linear Equations** on online tool "Desmos" by taking any 3,4 linear equations or as per requirement according the figure chosen by the students. The students will choose base figure like in first figure they can choose triangle and in second trapezium or any shape. Mark the coordinates of the chosen figure.

Link for drawing linear equations;

<https://www.desmos.com/calculator>

Students will do print screen in such a manner so that equations are visible. Now they will take the printout and create their own figure or design but **highlight the chosen base figure**. Do colouring or shading.

Upload the sheet on the Google Form .

Dear Students,

Kindly upload your figure in the prescribed format.

X(Section)-Name

For example: XD-Khushi Rustagi
