

## MORNING ASSEMBLY OF CLASS IV E (28.12.2017)

IV-E presented their morning assembly on Dec'28 on the topic "Conservation Day"

*"Energy misused cannot be excused"*

Keeping this in mind students of class IV-E gave a wonderful performance in their class assembly. They performed a skit on present, past and future Earth. The skit highlighted that a healthy environment is the foundation for a stable and productive society.

To add more colours the students performed a dance on the song "The Earth is my home". To sum up, it is important to look after environment in order to make Earth a better place to live in.
