VIRTUAL TOUR

CLASS IV –THE GARDEN OF FIVE SENSES (5.12.22)

“To walk in nature is to witness thousand miracles”

The students of class IV experienced the beauty of nature on a virtual tour to the “Garden of Five Senses”. The Garden of Five Senses is a park in Delhi, India. Spread over 20 acres, the park is located in Saidul Ajaib village, opposite Saket, near the Mehrauli heritage area. Designed by Delhi architect, Pradeep Sachdeva, the park was developed by Delhi Tourism and Transportation Development Corporation.

Students learned that it’s true to the imagery suggested by its name and with its beautiful, lush green landscapes, the garden of five senses stimulates all the five senses in an evocative bouquet that awakens the mind to the beauty of life and invokes a grateful prayer for the gift of touch, sight, sound, smell and taste .

The students learned that preserving nature is important because the biodiversity of the planet, including the human race, is dependent upon properly functioning natural processes. Without a healthy natural environment, most life would cease to exist.

The students enjoyed the video followed by an interesting activity wherein they wrote some amazing facts on plants and animals .The students shared the facts in the class and made beautiful pictures related to nature and animals. It was a great learning for all.
