

VISIT TO AEROPLANET

DATE: -08-09-2017

An excursion is more than eating a meal, it's a break in routine and adventure that opens up the children's minds to new things. To fulfill this purpose a recreation picnic programme at the Aero Planet was designed for the students of classes Pre- School, Pre- Primary, Mont I & II. A place where an Airbus A-300 is stationed to give the complete understanding of an aircraft, a 50-seater CRJ-200 was in the campus to give students an experience of boarding the aircraft and full view of the plane from the side gallery, cockpit view from inside and outside was also available for every learner there. The visit not only displayed and familiarized the students to air travel, but also taught the children aviation etiquettes and manners. Trampoline and bouncy games were the additional attraction. Rope crossing was another activity that was thoroughly enjoyed by all. There was no tiredness on their smiling faces on their return journey. This fun trip has given them the time which they will cherish throughout their life.
