

ANNUAL PICNIC – CLASS III & IV (22.11.2018)

A picnic brings about excitement, exhilaration and breaks the monotony in our lives. It also enhances the interpersonal skills of the students by bringing them closer to their classmates and creating a bond with their teachers.

MAPS organized an educational picnic for the students to the Akshardham Temple on 22 November'18. The day was a fun-filled learning experience for them.

They explored the temple with great enthusiasm and learned about the human values of non-violence, honesty, harmony, and spirituality.

Students thoroughly enjoyed sailing through the 10,000 years of India's glorious heritage and learned about the discoveries and inventions of the rishi-scientists. Students learned the teachings of Swami Narayan about life and God through an inspirational biographical movie. The day was indeed a spiritually enriching experience for them.
