

ASSEMBLY REPORT

PRE PRIMARY - E

DATED- 11.09.18

GANPATI BAPPA MORIYAA!!!

The students of Pre Primary – E mark the beginning of the festival season in a unique way with the celebration of universally popular festival, 'Ganesha Chaturthi'.

The assembly highlighted the story of birth of Lord Ganesha which was followed by a mesmerizing dance performance. Air and water pollution during Ganesha visarjan is always a major concern, so the students conveyed the message of celebrating Eco friendly Ganesha Chaturthi with the help of a powerpoint presentation. They explained about celebrating the festival using idols made up of paper mache, clay with diyas and natural decorations. They also enlightened the audience about immersing idols artificially without harming marine life and human beings and reusing old decorations.

The program concluded with a video showcasing to Plant a Ganesha with the hope that next year also Ganesha will come back to remove all the distress and sorrows. Our young audience were glued to their places and seemed to absorb all they heard.
