

ASSEMBLY REPORT

CLASS: I-E

DATE: 11.02.2019

THEME: Three magical Words

On 11th February, 2019, the students of class 1E presented their class assembly on the topic – **Three magical Words – Please, thank You and Sorry**. The students enthusiastically gave presentations highlighting the meaning and importance of these magical words through quotations, poems, speech, pledge and a vibrant dance performance.

1. Thank you

There is not one day of our life which we spend without taking help from another person. Be free and generous in expressing your gratitude! 'Thank You' is all that it takes to shows someone that you care and that they're important

2. Please

Often we take things for granted and order other people to do things for us, rather than requesting them to oblige. This does not help as the other person feels as if he/she is forced to do this for you. Just adding a simple and sweet please, could completely change the attitude towards you.

3. Sorry

Life is full of errors and we as humans are bound to commit mistakes. There is no harm in recognizing our faults and saying a sorry. In order to restore peace in our minds and lives we must say it more often.

At the end, students were posed different situations and were asked which magical word they would use in those situations. Through this assembly, the students of 1E gave a beautiful message that these three simple words can work wonders for people. If we genuinely use these words in our day to day communication with people we will definitely find a change in the way people respond to us and our actions.
