### BASANT VATIKA COMPETITION (13.2.24)

**Basant Vatika Competition was a fun and creative event for the Montessori II students. In this competition, the students got the chance to showcase their artistic skills by making beautiful 3D flower bouquets.**

**The little artists gathered colourful materials like paper, glue, and scissors to bring their creations to life. They learned how to fold, cut, and assemble the different parts of the flowers, such as petals, stems, and leaves. By using their imagination and creativity, the students made unique and vibrant flower arrangements.**

**Not only did the competition allow the students to explore their artistic talents, but it also helped them develop fine motor skills and learn about different types of flowers. They proudly displayed their 3D flower bouquets.**
