

Pusa Trip

To assist learners and to raise awareness of the world wide and developing a sense of their own identity. MAPS has geared up with the ISA project focussing on in graining a scientific and creative temperament .

The school went for an educational trip to PUSA Institute(agricultural) with class 8th students on

26/4/18.it was an experiential insight for the kids where the mentors explained different methodologies of growing crops for better future in the field.

They showed a ppt on G.M crops. Overall a great experience for the kids.
