

MORNING ASSEMBLY REPORT-CAM 4 (9.12.17)

The Five Attributes of a Cambridge Learner

Cambridge International Examinations (Cambridge) uses 'Cambridge learner attributes' to refer to five highly desirable habits in learning representing a combination of values, attitudes, motivation, empathy, knowledge and skills. These attributes are based on self-awareness and an understanding of the processes of learning and teaching, not just the outcomes. Believing the same, we have chosen the theme- *The Five Attributes of a Cambridge Learner. Ricer- Responsible, innovative, confident, engaged and reflective.*

On 9th December, 2018 a mesmerizing assembly was organized by CAM 4 -(class 4 Cambridge) students.

After the prayers, students presented the international, national, news and weather report. Then the thoughts of the day, which were truly inspiring, followed by self-composed skits, poems presenting different attributes of Cambridge learners. An interactive session was also organized by the students. Students were also honored by certificates for their participation and achievements in various interschool competitions by Our In charge Mrs. Jharna. The assembly was planned and presented by the students only, they prepared the skits and poems for the assembly themselves. Mrs. Jharna, teachers and Parents appreciated the efforts of students.
