

CLUB INITIATION- PRIMARY (2017-18)

The inherent talent of the students of Maharaja Agarsain Public School is nurtured through a plethora of various club activities integrated in the school curriculum. To develop creativity and capacity for analytical thinking, the students are exposed to various skill building activities throughout the academic session. The initiation of the club took place by sharing a brief introduction and the objectives of the different clubs by their respective teachers. Keeping in view the objectives of the club, children enthusiastically designed the logos and the framework of their club.
