

## DAY-6 ACTIVITY

### CLASS -2

Date: -10.10.17

## TOPIC :QUIZ ON CHILD SAFE GUARDING LESSON

Touch is one of the most incredible and vital senses. The first sense developed at embryonic stage which works till ripe age. Not only touch connects our nerve endings undergoing stimulation but also the way we interpret it is significant. It is the responsibility of every individual in society to protect children. Many persons are not aware about the height of the problem of child sexual abuse. There is a need for large-scale awareness programmes. It must be understood that children, young or small, have a right on their body and to say "NO" to anyone for touching them if it makes them uncomfortable. They should themselves decide who can touch, kiss or hug them.

In order to make the students aware about GOOD TOUCH and BAD TOUCH a PPT on 'Child Safe Guarding' was shown and explained to the students of Class-2. A quiz was conducted in all the sections, based on the PPT. The students participated with great zeal and enthusiasm. They wrote their answers on A-4 size sheets.
