

REPORT OF DAY-6 ACTIVITY(7.04.2016)
“HEALTH AND CHEERFULNESS
NATURALLY BEGET EACH OTHER.”

On 7th April 2016 the **World Health Day** was celebrated by the young Agarsanians of **class 1**. It began with an introduction activity which emphasised on good eating habits like having balanced diet, drinking water, fruit in every meal and a glass of milk every day. It was followed by a sandwich making activity to provide an opportunity to our young minds to display their skills and creativity. After making sandwiches, the students decorated them by making smilies and happy faces using different sauces. Everyone enjoyed a lot and the students exhibited their bondings by sharing their sandwiches with each other.
