

Day-6 Activity Class 2

Date- 17.12.2019

CANDY MAN

Creative thinking may mean simply the realization that there's no particular virtue in doing things the way they always have been done. It involves breaking out of established patterns in order to look at things in a different way. Creativity is nothing but a mind set free. For the same, students of class 2 performed a hands-on activity in which they were divided into groups. Each group was given an A-4 size sheet, origami sheet, clay, ice-cream stick, rubber band and asked to make their own candy man. This activity helped in developing critical thinking, stimulating learning and engagement in kinesthetics.
