

## INTER HOUSE ACTIVITY – PRIMARY (12.09.2018)

**Class 3-** Media these days holds utmost importance owing to its immense potential of influencing people's lives directly. Keeping this in mind, class 3 students were given an opportunity to present an advertisement giving the social message on "Keeping streets clean". Students presented their ideas by forming creative jingles and blending them with music. This promoted creative sense as well as the importance of cleanliness among the students. It was an IHC. The results were as follows:

1st position: Fraternity House

2nd position: Purity House

3rd position: Liberty and Austerity house.

**Class 4-** Students of class 4 took this Day 6 as an opportunity to tickle the funny bones of their teachers and students alike. Groups of students from different houses presented a comic clipping on "Relieving Exam Stress". Children came up with several fun ideas and enacted them through mono-acts and dialogues. Not only they expressed their anguish over exam stress but also showed numerous ways by which they can tackle the same. Students also went to different classrooms and presented their act which let everyone to have a good laugh and jotted down important points. The result was as follows:

1st position: Liberty house

2nd position: Purity house

3rd position: Fraternity house

**Class 5-** Learning mathematics is about making sense of mathematical situations." Puzzles provide an interesting context in which students can make predictions and conjectures and develop their powers of mathematical reasoning", says Colin Foster.

On this Day 6, students of class 5 were shown a video and solved various puzzles. These were prepared in groups after much brainstorming where students get to perceive mathematical problems with a different lens.
