“It is amazing how much love and laughter, a pet can bring into our lives”

Pets become our best friends in very short time. In order to fill the hearts of the children with love and affection towards animals, **PET PLAY DAY was celebrated in class 2**. They made beautiful toys for their pets with clay and other decorative material. It instilled so much of love and warmth in them towards their pets. They used colorful clay to make innovative and cost-friendly toys like car, doll etc.

All the students thoroughly enjoyed this house activity and filled their heart with joy and happiness.
