

## Education is for one and all

Education is the power to think clearly, the power to act well and the power to appreciate life!!! “Education is for one and all”, well said by our first Union Minister of Education Maulana Abdul Kalam Azad. To honor his birth anniversary ‘National Education Day’ was celebrated in MAPS by conducting activities like poster/card making, group discussion and slogan writing on the importance of education and literacy. Young minds showed their oratory skills by pouring their hearts out, urging everyone to join their hands together to eradicate illiteracy.

Happy Learning !!!
