BETTER SAFE THAN SORRY

To commemorate Global Road Safety week observed on 6 May 2023 MAPS Foundational wing organized the road safety day on 4 May 2023. The objective was to encourage our young Agarsainians to be a part of this awareness program and be well-versed with road safety and traffic rules.

Class 1 students made the traffic light and explained what message we get from red, yellow and green light. Class 2 students made road safety sign boards and gave presentation on the same. It was an eventful, engaging and productive day for Agarsainians.
