## Grandparents Day Celebration

17.09.2022

"Grandparents aren't old... they've just been having fun longer."

To show the special bond between grandparents and their grandchildren, MAPS Foundational wing celebrated **Grandparents day** with zest and fervour. This sparkling event started with the welcoming of parents and grandparents. Our blooming buds amused the audience with a delightful skit and left everyone emotional. A balletic dance performance by these tiny tots left our special guests spellbound. The little munchkins shared love and happiness with others by visiting old age home and filled it with their laughter. Token of love was gifted to the grandparents in the form of planters and garlands.
