

PRESENTATION WEEK PRE PRIMARY

"The groundwork for all happiness is good health".

The health of tiny tots is fundamental to the future progress of our country and hence health and wellbeing are important features of our curriculum at MAPS.

A presentation week on topic **HEALTHIFY ME** was organized for the students of Pre Primary from 1.5.19 to 3.5.19 where students briefed the audience about healthy habits. Students highlighted the importance of good eating habits, personal hygiene and how to keep surroundings clean. Props related to the same were appreciable. Knowledge about healthy habits will steer young minds towards adopting a lifestyle with healthy habits.
