"Storytelling is the most powerful way to put ideas into the world."

– Robert McKee

A story is the telling of an event, either true or fictional, in such a way that the listener experiences or learns something just by the fact that he heard the story. A story is a means of transferring information, experience, attitude or point of view. Every story has a teller and a listener. Keeping in mind a short play was organized to make students understand how to make a story.

WEEK 1- A short story was shown and idea related to the play was discussed with them. They were shown videos to get an idea of the story and dialogues to be discussed on next house day.

WEEK 2- Interactive session- Students were made to sit in groups to work on dialogues. The dialogues were discussed and script was prepared with the involvement of the students.

Week 3- Prop making- Discussion and preparation of props were done. Each group was asked to make props related to the story. They were allotted different props to be made for story.

Week 4 – Selection round- Selection of students for play was done. Each student was given dialogues to learn and speak with clarity and expression in front of the audience.

Week 5- Rehearsal day- Practice of the play was done along with the props. For the whole week, the practice was done to perform better on the last final day.

(Stage-IHC)-Week 6 – Final presentation Day- Final presentation with props of story was done by each house on stage.
