

MAHARAJA AGARSAIN PUBLIC SCHOOL

a Cambridge International School

Ashok Vihar, Phase-IV, Delhi-110052

'The true strength of the classroom lies in the collaboration of learners and not just in the knowledge.'

Collaboration between schools and teachers is a powerful professional development activity that can help teachers improve their classroom practices and also help students to acquire knowledge. With this thought in mind the students of foundational wing, MAPS Ashok Vihar collaborated with the students of Giao Thien Primary School, Namdinh, Vietnam represented by Ms Ha on 12th October 2022.

Global collaboration is the process of cultural empathy. Keeping this aim as the motto both the schools portrayed their pre - eminent paradigm of culture and aesthetics to each other. Our students were in awe watching the Vlog of the Vietnamese school which depicted the serene beauty of the Xuan Thuy National Park of Vietnam. The same feeling of admiration was reciprocated by students Vietnamese students while watching the video of Bharat Darshan Park, Delhi. This exquisite session was followed by a colloquy which consisted of various questions asked by the pupils of both the schools.

Our worthy Principal Ms. Alka Sahani enlightened us with her words of wisdom wherein she highlighted the fact that global collaboration is a unique opportunity to celebrate lifelong learning and force international mindedness in our children and educators. Her insightful speech was followed by a peroration by the Foundational Wing Coordinator Ms. Pooja Gaur. She concluded the session with a Vote of Thanks and invited the faculty and the students of the Vietnamese school to visit India and our school too.
