

### INTERNATIONAL DAY OF EDUCATION (VI-VIII)

24.01.2024

“Education is the passport to the future, for tomorrow belongs to those who prepare for it today.”

MAPS actively participated in the celebration of the International Day of Education, commemorating the significance of education worldwide. The school organized a comprehensive awareness campaign within its premises to highlight the importance of education and foster a sense of global citizenship among students. The session aimed to inspire students and educators, shedding light on the impact of education on personal growth and societal development. Teachers facilitated classroom discussions to engage students in meaningful conversations about the role of education in shaping their futures and creating positive change globally. The event successfully reinforced the school's commitment to providing quality education and promoting a culture of learning and understanding among its students.
