

KNITTERS COMPETITION PRE PRIMARY

Creativity is making a marvelous out of discarded.

In line with the above motto, an interesting competition titled 'The Knitters' for Pre Primary students, was organised virtually. Students used reusable and recyclable material like match boxes, plastic bottles, newspapers, old bangles etc. Mind blowing and fantabulous ideas were demonstrated by our tiny tots. They prepared creative items from different waste materials. The activity was helpful in creating environmental consciousness among them, which is the need of the hour.
