

MAPS EXPO 2020

25.07.2020

The more we give importance to skill development, the more competent will be our youth. With a view to actualize the above saying, MAPS organised "EXPO" on 25th July 2020 with the aim of enhancing their academic and presentation skill.

In the Expo, the work done by the Nursery Students was presented online. For the above Expo four padlets namely Story Depiction, Creative wall, Reading challenge and Virtual Brilliance were prepared.

The total work was bifurcated into the above padlets and exhibited as per the themes. This was the first time, the padlets were explained by the students and teachers in a Coordinated way. This made the presentation more effective and interesting. The students gave their maximum and their parents' contribution was enthusiastic. The whole event was successful and the aim of the event was achieved with the concerted efforts of the students & teachers and inspiring cooperation of the parents.
