

*'Heaven on Earth' is a choice you must make,  
not a place you must find.*

On the lovely summer morning of 29<sup>th</sup> April 2016 Ms. Bhavna Mittal and the students of class 4-A entertained and enlightened everyone through their stupendous performance on the topic "Earth Day". The assembly began with the prayer ceremony followed by news reading. The highlight of the day was the exuberant skit, performed by the

sprightly students, aimed at motivating the audience to work as young guardians of the Mother Earth. The use of strikingly beautiful props helped in asseverating the message in a very pronounced manner. At the end, a splendid dance performance was staged and the class teacher, Bhavna Mittal, stressed on the need of active participation in saving our beautiful Earth.
