

NUMBER NINJA RACE

Pre-Primary

Date:-18.07.2018

The favorite part of any game is an equal opportunity to play. A race cum numerical skill check 'Number Ninja' was organized for Pre-Primers where every student got an opportunity not only to race but also to check their numerical skills by identifying the correct number at the correct point of time. The race not only gave a playful time to the kids but also helped in making them alert, active & spontaneous. It was enjoyed by one and all.
