

## **ORIENTATION PROGRAMME**

Orientation programme for the parents of class IX was held on 22<sup>nd</sup> april, 2017. The session was conducted by Ms. Ashu Gulati and Ms. Veena Kumari. It was a great success as parents appreciated the points covered which made them updated with the new system of assessments well as they came to know about the behavioural problems of students faced by teachers and how parents interference can help the students to become a good human being. Parents were also informed about various school rules. Parents found the session very useful and asked that more such sessions should be held time to time.
