

ORIENTATION PROGRAMME

23.03.2019

“An investment in knowledge always pays the best interest”.

An orientation programme was organized to welcome the tiny tots and parents which gave an insight about the curriculum of the school. The programme commenced with the school report given by the students which included school activities and achievements. A nukkad natak followed by a dance performance by the little ones was appreciated by one and all. Principal ma'am, Ms. Punam Gupta highlighted the 'role of parents' in shaping the personality of their children, especially in these crucial years of growth. She also shared few tips about good parenting and emphasized on spending quality time with their children.

It was further enunciated by Nursery Coordinator, Ms. Pooja Gaur who briefed the rules and regulations and shared information about co-scholastic activities in the curriculum that promotes holistic development of the child. A formal introduction of class teachers of Pre School, Pre Primary, Mont I, Mont II along with teachers of extra-curricular activities was also given.

The day ended with parents meeting the class teachers and getting familiarized with the school. This certainly was a head start to a new beginning of yet another academic year.
