

REPORT ON JUNGLE SAFARI PRESENTATION

CLASS- MONT I

DATE- 28.10.20

"Tell me and I forget, Show me and I remember, involve me and I understand."

Learning with the help of visual tools helps the students to understand and memorize different topics with great ease. Keeping this in mind a virtual 'Show and Tell' activity was organised for the students of Mont I on the theme Animals. They researched on their favourite animal and presented it through charts, pictures, toys as props to share with the class. This activity gave each child a chance to be the centre of attention of the class as he or she spoke a few lines about their favourite animal. The main aim of the activity was to develop their social, emotional and linguistic skills as they learnt to use descriptive language, practice listening skills and share their knowledge with others. The 'Jungle safari' helped to foster speaking skills and students felt comfortable while speaking in front of their peer group. Through this activity, students also learnt to express their feelings, thoughts and emotions. All the students participated actively and confidently in the activity. It was wonderful to see the excitement of our little ones on the screen.
