

Safety our first Priority

PRE-SCHOOL

"Safety isn't expensive, it's priceless."

To make the children understand different ways to keep themselves and their family protected from covid-19, "Safety our first priority competition" was organised on 21st October 2021. The basic aim of the competition was to make the students understand the most essential thing i.e. safety to fight against this pandemic. It also made the children ready for the post pandemic situations. The students spoke few lines on the safety measures to be taken care. They presented their thoughts with the help of props. The event judge was really astonished to see tiny tots speaking so confidently and sharing their knowledge about the precautions to be taken. It was an interesting and a thrilling experience for the kids sharing their feelings with peer which provided fun and comfortable learning arena for everyone involved.
