MAPS/NURS/2016/18

One of the most important and pervasive goals of schooling is to teach students to think. All school subjects and activities play an important role in accomplishing this overall goal. Science contributes its unique skills, with its emphasis on hypothesizing, thinking and reasoning skills.

To know the curiosity level of our little genius

MAPS
ORGANISES
A PRESENTATION WEEK
TOPIC: SMART SCIENTIST
FOR
PRE SCHOOL
FROM
20.02.2017 - 22.02.2017
as per the given schedule below

Date	Class & Sec
20-02-2017	Pre School- A & C
21-02-2017	Pre School- B & D
22-02-2017	Pre School- E & F

Students will present any one experiment and display their scientific skill, during the presentation. They should be well prepared and should have required knowledge of the experiment.

Kindly note the following points:

- 1. Parents must get the idea of presentation approved by the class teacher before preparing their ward.**
- 2. Harmful chemicals are not allowed.**
- 3. Only child friendly material should be used in experiment.**
- 4. Students will bring their own material they require for the presentation.**
- 5. Send the gloves and other required safety stuff.**
