MAPS/CIR/2020/11

Date- 31.10.20

Education is the most powerful weapon which you can use to change the world”

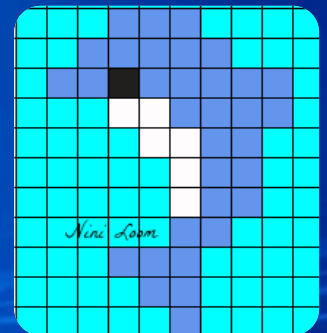

Coding is a basic literacy in the digital age, and it is important for kids to understand technology around them. Pixel art is a form of digital art, created with the use of software. It brings art and math into computer science because each activity results in creating pixel art and patterns. Keeping the same in mind,

“TECHNORATE”

Coding & Creative Thinking

**IS ORGANIZED FOR
PRE-PRIMARY
CLASSES ON**

Mini Loom
